GENERAL SESSION LIBRARIES: ESSENTIAL FOR LEARNING, ESSENTIAL FOR LIFE

Molly Raphael

Molly Raphael, American Library Association President for 2011-12, served in urban public libraries for 40 years. Raphael's 33 years at the District of Columbia Public Library (DCPL) began as a youth librarian and culminated in her appointment as Library Director in 1997. In 2003, Raphael was recruited to lead the award-winning Multnomah County Library (MCL) in Portland, Oregon. Under her leadership, MCL achieved consistently top national rankings among urban public libraries and the highest gross circulation of any library in the country, surpassing libraries

serving much larger populations. MCL, a nationally recognized leader in developing early literacy services and programs to reach out to underserved, culturally diverse communities, was selected in 2009 to receive the Institute for Museum and Library Services (IMLS) National Medal for Museum and Library Service, the nation's highest honor for museums and libraries. Raphael has served on boards for many organizations and institutions. In the past decade, she has served on many advisory boards for graduate library and information science programs. Raphael received her M.S. in Library Science from Simmons College (MA) and received its Alumni Achievement Award in 2006.

IDENTIFYING CORRESPONDING RECORDS ACROSS MULTIPLE DATA FORMATS

Randy Kuehn and Calvin Miracle, University of Louisville

Managing multiple information systems that reference like items with differing data formats can be an arduous task. The complexity is compounded when attempting to make corrections to records on a large scale when data varies and unique identifiers do not exist. It is here where fuzzy logic can be an effective solution. This session will outline a multifaceted fuzzy string matching method used to analyze MARC records and their metadata counterparts from CONTENTdm in order to correct mismatched data.

WORST CASE SCENARIO? YOUR LIBRARY WITHOUT SUBSCRIPTION DATABASES

Clay Howard, Morehead State University and Julie George, Eastern Kentucky University

In recent years, an unsustainable economic model has emerged in many academic libraries—skyrocketing journal subscription costs coupled with diminishing materials budgets. What if vendor prices for journal subscriptions rise so fast that our budgets just can't keep pace? Could we continue to meet the needs of our patrons if we had to cut EBSCO and other expensive aggregator databases? And for those of us charged with teaching good research skills, how would instruction change? In this interactive session we will tackle the above questions, present some open source alternatives to subscription databases, and discuss "vendor-free" information literacy instruction.

GENERAL SESSION THE MAZZA MUSEUM: LEARN ABOUT CALDECOTT AWARD WINNING ORIGINAL ARTWORKS PLUS MUCH MORE

Benjamin E. Sapp, Director of the Mazza Museum, Instructor of Education, The University of Findlay

The Mazza Museum originated with four original artworks purchased by Dr. August and Aleda Mazza and given to the University of Findlay in 1982 and has grown to house the largest collection of original art from picture books in the world. The collection contains original Randolph Caldecotts, Walter Cranes, and Kate Greenaways, as well as multiple Caldecott award winning originals. The Mazza Museum is so well respected by the artists in the world of children's literature that several well-known artists have used the Mazza layout as a standard for designing their private collections and museums. Eric Carle designed for the Mazza the infamous banners that hang over the entrance. The Mazza is frequented by award-winning artists not only as presenters, but as visitors, and is held in such high esteem that Patricia Palocco has deemed the Mazza as the final home of her coveted original 'Keeping Quilt' quilt.

COLLABORATIVE LEARNING IN AN INTEGRATED SPACE: RESEARCH AND MULTIMODAL COMMUNICATION FOR THE 21ST CENTURY

Russell G. Carpenter, Director, Noel Studio for Academic Creativity, and Trenia Napier, Research Coordinator, Noel Studio for Academic Creativity, Eastern Kentucky University Sponsored by the Library Instruction Round Table

The Noel Studio for Academic Creativity is a new, innovative mission and vision at EKU integrating services for writing, oral communication, and research in a technologically sophisticated environment. In this roundtable session, the presenters foreground research and information literacy initiatives that facilitate integration among multiple modes of communication, including oral, written, visual, electronic, and nonverbal, and foster creative-thinking skills in students from across the curriculum. What does research support look like in a multimodal space? How does integration among multiple communication modes support the space's collaborative mission and vision? Attendees will engage in hands-on methods for collaboration, invention, and multimodal communication for an integrated space. Further, the presenters will discuss the role of the library, and research emphasis specifically, within a space intended to develop effective communication products and practices in student learners.

BRIDGING THE GAP: EXPANDING EDUCATIONAL OPPORTUNITIES FOR KENTUCKY'S RURAL PUBLIC LIBRARIANS

Arne J. Almquist, Northern Kentucky University, Wayne Onkst, Kentucky Department for Libraries and Archives, and Martha Birchfield, Bluegrass Community and Technical College Strong public libraries are key to the educational success of a community. While Kentucky does have strong public libraries, geographic and economic challenges can serve as significant obstacles to the education and training of library workers. KDLA, NKU, and BCTC have joined forces to address this problem through Bridging the Gap, a project funded by a nearly \$1 million federal grant. The presenters will discuss the creation of the partnership, the rationale behind the selection of the target population, the issues that the project addresses, and the unique techniques used to address financial, technological, and professional networking issues, as well as the partnership's future directions.

THE LIBRARY AS PARTNER: SUSTAINING RELEVANCE IN A COLLABORATIVE, STUDENT-FOCUSED TECHNOLOGY CENTER

Heather Lambert and Christy Groves, Middle Tennessee State University

Trends in the library profession have continued to migrate toward the provision of collaborative workspaces for users. MTSU's cutting edge center, the Digital Media Studio, provides students with opportunities to work with one another and with library personnel. The Fall 2010 launch of the Studio aims to firmly establish the library as a partner with students who no longer possess a traditional view of library services. The presenters will discuss how we made the library a partner for students through our service to them. We will demonstrate the importance of connecting with users in need of help at their point of need and highlight how our successful relevance and sustainability is due to consistent and effective methods of gathering feedback.

We will share tips on useful apps and accessories, as well as review procedures used to maintain the iPads. Professional development for faculty and staff and a look into next generation tablet devices will also be addressed.

EXPLORING THE OPTIONS FOR A FEE-BASED INFORMATION SERVICE

Peter Hesseldenz, University of Kentucky

The Business Librarian at the University of Kentucky Libraries has developed a strong working relationship with the Kentucky Small Business Development Center (KSBDC) over the last few years. It began with the Business Librarian providing occasional research assistance to the clients and employees of KSBDC. Recently, however, the volume of research requests that KSBDC was asking for became too much for the Business Librarian to accommodate. At that point, KSBDC began paying the salary for a part-time graduate student assistant to help with the research load. This situation works well, but the research volume is ever-increasing. If it continues at its current pace, it will soon overwhelm the two-person operation. When that point comes, a new model will have to be considered. Several academic libraries around the country have experimented with fee-based information services for their dealings with the local business community's research needs. This poster will look at different potential models for establishing a fee-based service, pointing out pros, cons, potential pitfalls, and potential rewards. It will compare them to non-feebased solutions.

CREATING A FACULTY MULTIMEDIA TOOLKIT

Ray Bailey and Gina Blunt, Morehead State University and Kristi King, University of Louisville

Librarians at Morehead State University (MSU), along with faculty from MSU and the University of Louisville, co-created a Faculty Multimedia Toolkit. The toolkit consists of software and hardware used to create various types of multimedia content for college courses. To measure the toolkit's effectiveness, a pilot group of faculty at MSU will utilize the toolkit to create content for their classes.

TO THE RESCUE: INTELLECTUAL FREEDOM FIGHTERS IN POPULAR CULTURE

Amber Surface, University of Kentucky School of Information and Library Science Graduate Student

It's no secret that librarians have undergone a dramatic change on the now commonly-held view of intellectual freedom. As late as the 1940s, librarians actively censored collections; today, one can scarcely believe it could happen. From "The Librarian" series (made-for-television movies by cable channel TNT) to *Library Wars* (manga, anime, and light novel series), today's popular culture exalts library professionals and their dedication to freedom of information and equality in access. Some erroneously assume that this dedication relates only to American culture, but in fact one popular library series arose from a policy change taken from the Statement on Intellectual Freedom in Libraries of the Japan Library Association. This poster focuses on the links between the cultural associations of libraries and worldwide policy changes that inspired them. While many policy makers in the library system may not consider the implications outside their corner of the world, it is plausible that the smallest change may not go unnoticed.

SUPERHEROES: FROM MUTANT LIFE-FORM TO SAVIOR OF THE UNIVERSE

Sandy Sumner and Donna Baker, Morehead State University Do we sweep in to solve a problem and then fade back into the shadows or are we proactive in serving our patrons' needs? Do we hide behind our glasses a la Clark Kent or do we stand proudly at the podium to declare, "I am a librarian." We need to be more transparent in our profession, from the training needed to become a librarian to the workflow of technical services and everything in between. Our sessions will showcase the old stereotypes and then offer suggestions of radical deviations that are becoming the norm.

DIGITAL COMMONS ... THE LIBRARY'S BIG GUN!

Nancy Richey and Suellyn Lathrop, Western Kentucky University The number of institutional repositories in academic libraries has been growing substantially in recent years. These digital commons are misunderstood by both librarians and the university community. As Kentucky institutional repositories grow in information, content, and participation, this will benefit both researchers and the community as they realize the value of these as a gateway to the variety of unique information and materials produced by higher education institutions. Learn how these tools can help provide researchers a way to explore through a central interface and thereby gain access to our most valuable information resources.

GENERAL SESSION LIBRARIES: ESSENTIAL FOR LEARNING, ESSENTIAL FOR LIFE

Molly Raphael, American Library Association President Libraries of all types have had to change rapidly, particularly over the past two decades, in order to survive. As a result of the current economic conditions, we are witnessing even greater threats to our futures than we have ever experienced before. How can we position our libraries not just to survive but to thrive as we serve our diverse communities? What difficult choices will we have to make in the next few years to ensure that our value remains high for those we serve, no matter the type of library? Where and how can we find opportunities to move our libraries to a place where they are seen as essential for the future of the communities and larger entities we serve?

WHAT DIDN'T CHANGE? SERVING AND SUPPORTING FACULTY, STAFF, AND STUDENTS DURING A TIME OF MAJOR INFRASTRUCTURE IMPROVEMENT

Jason Keinsley, University of Kentucky

We should not take for granted the effort and resources necessary to maintain operations in today's libraries. Much of the maintenance and upgrading of infrastructure goes on behind the scenes without disrupting the end user. However, this is not easily accomplished during computer hardware, software, and print services upgrades. In this session, the presenter will look at issues involved in upgrading all of these areas at once and how you can be a positive part of the process. The discussion will focus on the challenges and opportunities, for both information technology support and those they support, involved in upgrading 700 computers, 100 printers, and a host of software in a calendar year.

FLIGHT TO FREEDOM-MAKE HISTORY COME ALIVE IN YOUR CLASSROOM

Kathy Davis, KET

Mission US is an interactive online "game" which invites today's techsavvy students to be "players" in important periods of American history. The first game, "Crown or Colony", about events leading up to the Boston Massacre was released in 2010 and "Flight to Freedom", the newest game, is being released this year. In "Flight to Freedom" players will assume the role of a runaway slave as they explore the events leading up to the Civil War. This game is partly set in Kentucky and the lead character is a female. In addition to the game, the Mission US website offers numerous down-loadable resources and activities for classroom use, including document - based questions, a primary source collection, vocabulary activities, background on historical figures, writing prompts and visual aids. Bring your own laptop and come to this workshop to experience both games. Even if you don't have your laptop you'll get to see firsthand how the "games" can truly make history come alive in your Social Studies classrooms. As a Media Specialist you will have an excellent resource to go back and promote to your Social Studies teachers.

IN A FIX: MAKING THE MOST OF YOUR LIBRARY SCHEDULE

Kimberly Montavon, Library Media Specialist, Flemingsburg Elementary School

Christie Turner, Teacher, Flemingsburg Elementary School Lisa Price, Teacher, Flemingsburg Elementary School While advocating for flexibility, how can you make the most of your fixed library schedule?

In this session, we will keep kids first and share lessons and strategies for teaching and reinforcing reading skills and content during library lessons. We will share collaboration techniques that have worked for us as well as several lesson ideas that will satisfy the curriculum of both the library program and the classroom. Participants can expect to gain strategies and lessons on such topics as word recognition, context clues, comprehension, inferences, main idea, sequencing, cause and effect, and comparing and contrasting information.

This session would be most beneficial to elementary library media specialists who are on a fixed schedule and want to make the most out of their time with students. AASL ROADMAP TO LIBRARY LEADERSHIP

Carl Harvey, AASL President

Our profession is at a crossroad. We have enormous opportunities for helping students gain and master the skills they need to be successful in the 21st Century. At the same time, we're facing huge challenges with positions being cut, budgets slashed, and programs dying. Which road our field takes relies in large part on us. We need to take control of the wheel and steer our program and our profession down the right road to success. We'll point out the signs of opportunity along the way and think in terms of what we can do in our own buildings to build a successful 21st Century school library program. Friday continued

INFORMATION.....

Saturday continued

10:15-11:30 A.M.

KET ENCYCLOMEDIA

Brian Spellman and Helen Morrison, KET

KET EncycloMedia is bigger and better than ever, now with three services - Discovery Education, KET Teachers' Domain, and KET ED On Demand offering thousands of videos, interactives, and other education resources in all curriculum areas and for all grade levels. This session offers an overview of each of the three services and allows time for participants to explore on their own. Participants will want to bring a personal laptop or lpad.

11:40-1:00 P.M.

KSMA LUNCHEON AND BUSINESS MEETING

Special Guest Carl Harvey, AASL President

Join your colleagues for lunch and the annual KSMA business meeting. This meeting is required by the association's by-laws and Brenda Metzger, KSMA President, will give a short overview of the association introducing the new slate of officers. Tara Griffith, KSMA President 2011-12, will introduce the new board. Carl Harvey, AASL President, will also address the group.

1:15-2:30 P.M.

ELEMENTARY BOOK CLUBS-NEW TWISTS ON A SURE THING

Ann Fendley, Concord Elementary School

Reading has lots of competition these days! Come to this session to hear how to get kids "hooked" on reading. Ann will share ideas for book clubs that include K-1 boys and girls, 2nd-3rd grade boys and girls, Mother-Daughter book clubs, the annual Read-a-thon and more. Ann shares ideas that you can implement in your library as soon as you get back to school.

1:15-2:30 P.M.

21ST CENTURY SKILLS ARE ELEMENTARY!

Carl Harvey, AASL President

There is so much talk about 21st Century Skills. AASL's Standards for the 21st Century Learner help to paint a picture of what students need from school librarians. What do these things look like in practice? How can you go about integrating these standards in your library program? We'll share some ideas, spark discussion, and you will come away with ideas you can use in your school!

1:15-2:30 P.M.

EBOOKS? E-YIKES!

David Grossman, TK Stone Middle School Janet Jackson. Fort Thomas Highlands High School

Are you considering acquiring eBooks or eReaders for your library? If so, you won't want to miss this session. In it, we will look at some of the eBook/eReader options that are available so you can make an informed decision. Also, we will examine how one library has implemented a circulating eReader program. The Highlands eBook collection consists of 10 multi volume sets from Gale Publishing. The subjects include arts and humanities, world biographies, education, American history, health, literature and clothing and fashion. Students are able to access the eBooks from any computer with the internet, the collection is linked to our online catalog as well as a link on our webpage. Highlands started the eBook collection in 2009.

Saturday continued

1:15-2:30 P.M.

THINKFINITY CONTINUED

Jeff Nash Pulaski Co. Schools

1:15-2:30 P.M.

BOYS READ, TOO!

Shelia Swab, Lone Oak Middle School

Motivational strategies and books will be shared that have proven to connect boys to reading, even the most reluctant, in our effort to raise reading test scores among our male students. Be ready to share ideas that have worked in your schools also.

1:15-2:30 P.M.

KBA FOR HIGH SCHOOL

Lynda Short and Karen Higdon, Paul Laurence Dunbar High School

Get your students and faculty involved in selecting Kentucky's favorite high school book. The new titles for the 2012 KBA 9-12 list, voting procedures, and integration of KBA books at your school are presented.

1:15-2:30 P.M.

QR CODES IN ACTION

Melinda Caldwell, Northern Elementary

I've seen then, but what can I do with them? What are QR codes and how can I use them in the library? Melinda will show you how to incorporate QR codes in a very fun way. Students at her school recorded podcasts and saved them as a QR code. The code was placed inside the book and other students use an I-Pod touch to download and listen to the podcast. Sound hard? Melinda will give you the easy, step-by-step directions on how to do this. Bring your computer and smartphone or i-Pod and you can leave with a product. Contact Melinda.Caldwell@scott.kyschools.us for exact specifications.

1:15-2:30 P.M.

GIVE A BOOK A MUSICAL LOOK

Amy Bolar, Music Teacher, Flemingsburg Elementary School Kimberly Montavon, Library Media Specialist, Flemingsburg Elementary School

Ideal for those who feel themselves to be "non-musical", this session will demonstrate the use of picture books to teach and/or reinforce elementary music core content. Activities shared during the session will provide handson and creative experiences for students. Both lesson plans and picture book bibliographies will be available.

1:15-2:30 P.M.

UPCYCLING

Lisa Hughes, Heath High School

What can you do with all those old books? Come to this session to hear some really cool ideas. Learn how to make a purse, a table, decorations and other ideas that will give new life to old books.
